PROFESSIONAL SUMMARY

Motivated Junior Software Developer with previous hands-on development experience, with a good academic record in computing studies and professional background in accounting and banking environments. Although I acquired valuable skills in analytical and client-oriented positions in finance, my true passion is programming and software development, with a strong emphasis on attention to detail and natural problem-solving skills.

I have just completed a Full Stack Developer Traineeship, successfully completing two real-world projects to a professional standard using technologies such as Java, C#, Python, and HTML. I possess good knowledge in software development life cycles, database management, and developing application solutions according to business requirements.

With good communication, teamwork, and planning skills, as well as a strong work ethic, I am eager to start a long-term career as a software developer where I can contribute to the field effectively.

PROFESSIONAL EXPERIENCE

Career Break / Software Development Training

Mar 2025 – Present

- During this time, I began studying coding and completed projects to gain practical experience with these technologies. I am now immediately available for any junior roles in the development field.

Cybersecurity Awareness Training, LMP Education

Feb 2025 – Mar 2025

- Covered common cybersecurity risks, secure working practices, and practical prevention measures.

ASA Accountants — Trainee Accountant

Nov 2018 – Jan 2020

- Prepared accounts, VAT returns, reconciliations, and supporting financial records for a range of clients.
- Worked accurately with client documents and compliance-focused financial processes.

Lloyds Bank — Trainee

Jun 2018

- Developed insight into retail and commercial banking operations, customer handling, and financial service processes.

Wow Biz Agency — Web Developer

Feb 2014 – May 2014

- Helped lead the development of a client website and coordinated tasks across a small team.
- Supported project planning discussions and contributed to collaborative delivery of web content.

Level 2 BTEC First Diploma in Electronics (Pass) | 2008 – 2009

CERTIFICATIONS

- **BCS Foundation Certificate in the Ethical Build of AI** — Completed Apr 2026

- **HTML5 & CSS3 Web Design Fundamentals with JavaScript** — Completed 2025
- **Introduction to Python** — Completed 2025
- **JavaScript Essentials** — Completed 2025
- **Cybersecurity Awareness Training, LMP Education** — Completed Mar 2025
- **Coding in Python for Industry Work Environment** — Completed 2023

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, Python, PHP, Java, C#, SQL

Frameworks & Libraries: React, Bootstrap, jQuery, Node.js

Databases: MySQL, SQL

Tools & Concepts: Git, GitHub, REST APIs, JSON, responsive web design, software testing

Additional Tools & Concepts: Blender, Cinema 4D, 3DS Max, Maya, Unity 3D, Unreal Engine, Notepad++, CAD

PROJECTS

Gazetteer

HTML, CSS, JavaScript, jQuery, Bootstrap, PHP, REST APIs, JSON

[Project link](#)

- Built an interactive map-based application presenting country, geographical, and demographic data from JSON.
- Integrated third-party APIs including GeoNames and OpenWeather to display live information dynamically.
- Developed a responsive interface with modal-driven views for weather, news, currency, and country reference data.

Company Directory

PHP, MySQL, JavaScript, jQuery, Bootstrap

[Project link](#)

- Built a database-backed personnel directory application for managing employees, departments, and locations.
- Implemented create, read, update, and delete functionality with filtering and relational validation.
- Completed the project lifecycle from proposal through development, testing, and sign-off using a formal test script.
